Finite reference-Dirichlet strip; frozen T4=0.008192 s, T4 u*/H=0.004096; spatial residual and stage defect are distinct
EP
Budget
Normalized initial-field drift
Normalized interface jumps
Consistent-mass dual residual
Physical time (s)
coarse velocity
coarse k
coarse outer_epsilon
fine velocity
fine k
fine outer_epsilon
coarse traction
coarse k_flux
coarse pressure_offset
fine traction
fine k_flux
fine pressure_offset
coarse spatial u alpha=0
coarse actual stage u
fine spatial u alpha=0
fine actual stage u
