M5 conservative mapped CG verification · 42b8ba83897c
Outer dissipation: fixed physical geometry
Physical RMS epsilon error (m²/s³)
Native velocity/scalar degree p
circle
variable
surface3d
feet
Normal-momentum pressure solution
Regional pressure RMS norm (m²/s²)
Native velocity/scalar degree p
Same field on one and two patch columns
Max. scaled common weak-load error
Acceptance 1e-10
Outer Gauss order per axis
Strong divergence diagnostic
Physical RMS div(U) (1/s)
Native velocity/scalar degree p
